

Over 50,000 Students Attended UCAT Campuses Last Year. Why?

UCAT Means Better Jobs, Fast:

The ATCs statewide have one UCAT mission: to give students the skills employers need most. Students skip Philosophy 101 and instead master specific workplace skills. This translates into better jobs in the shortest possible time.

It's Affordable:

Not only is UCAT training quick, it's also a great deal: as little as \$1.30 per classroom hour, making it one of the most affordable training choices in the state. As part of Utah's System of Higher Education (USHE),

UCAT's promise is to keep technical education as accessible as possible.

You Start Any Week:

Most UCAT programs are open entry, meaning that students can start anytime. Classes are self-paced, so students can move as fast or take as much time as they need to finish.

Learning Is Hands-on:

UCAT's teaching methods are uniquely hands-on. Students do projects in state-of-the-art labs and through internships with local employers. This practical experience is the heart of UCAT curriculum.

Ideal for High School Students:

High school students generally attend tuition-free! By working hard, a student can finish an ATC program that will provide high-demand career opportunities upon high school graduation.

UCAT

UCAT is part of the Utah
System of Higher Education
which includes:

- Technical Colleges (UCAT)
- Two-year Colleges
- Four-year/Advanced Colleges and Universities

UCAT campuses train Utah's
workforce, the backbone of our economy.
